Additional notes:

- The district administers STAR Reading and Math assessments in grade K-8 to collect data for instructional purposes. The state only mandates the Reading Assessments in K-3 to comply with the Third Grade Reading Guarantee.
- Third-grade students must score above certain thresholds on the 3rd grade Ohio State Test in Reading or another approved assessment in order to move to 4th grade. This is part of the Third Grade Reading Guarantee.
- The state mandates that we conduct whole grade screening for gifted identification in two grades between Kindergarten and 5th grade, we choose to screen in 2nd and 4th grade using the Terra Nova and InView assessments.
- There are now various ways that students can meet the requirements for graduation. In fact, these requirements are different depending on the cohort of students (i.e. this year's freshmen have different requirements than this year's seniors). These different requirements may require different assessments and different results on them. Still, all students must take the End of Course Exams.
- The ELA 1 test is only required for the classes of 2020, 2021, and 2022.
- English Language Learners are required to be tested on English Language proficiency using an assessment called the Ohio English Language Proficiency Assessment (OELPA).
