### Facts for Inspiration:

- E-cigarettes contain nicotine, cancer- causing chemicals, volatile organic compounds, heavy metals, ultrafine particles, and flavoring chemicals that may be unsafe to inhale.
- Nicotine can harm brain development, which continues until about age 25.
- Youth nicotine use can harm the parts of the brain that control attention, learning, mood, and impulse control.
- Nicotine levels in vapes have increased over time, making them more addictive than ever.
- Nicotine addiction can worsen feelings of stress, anxiety, and depression.
- Youth that vape may experience health problems like wheezing, nausea, vomiting, headaches and dizziness.
- Vaping can affect athletic performance.
- Vaping can increase the risk of addiction to other drugs in the future.
- Live Vape free is a free resource for Ohio teens and young adults that want to quit vaping.
